

## Protect Your Jobsite

with our 100% Battery Powered &  
Wireless Video Verified Intrusion  
Detection System

### Always on Watch, Never Distracted, Never Asleep

- Prevent crime 24/7 with a video verified intrusion detection system
- A verified video alarm is a **PRIORITY ONE RESPONSE** from the police, it is a verified "crime in progress"
- Easy to move system to another job site, different project location
- Over 1 million installations worldwide

## How It Works

Aim camera at your valuable assets. Cameras should be mounted 10-12' high & within 50' of viewing target.

When an intruder walks between a camera & your assets, a 10 second video clip is sent to our monitoring station.

Within 65 seconds our live operator takes action - we call police or fire off sirens & strobe lights.

Get Access to THE BEST Technical Support Person in the Business 16/7/365

### What Our Customers Say

“ Jim Flick has been extremely helpful and always available to answer questions when they arise. He definately gives peace of mind knowing that I have him monitoring the system and making sure everything is up and functioning correctly.

**Brad Brueckner**  
Superintendent  
[www.jirsaconstruction.com](http://www.jirsaconstruction.com)

“ Just wanted to drop a note and let you know the great service we have received from Jim Flick. Our system is working as advertised.

**Terry Gillis**  
General Manager  
Recovery 1, Inc.

“ Our representative Jim has been unbelievably helpful from our original camera set up on through maximizing the equipment's effectiveness and coverage areas. Jim makes this process so easy that I have zero problems with recommending this solution to anyone.”

**Fred Willson**
